

# Country Profile: Liberia

Despite nearly four years of peace and a renewal of economic growth, Liberia is still one of the poorest countries in the world and many basic services (public power, water and sewage, land line phones) are either limited or unavailable. Facilities for foreign visitors are adequate in the capital, Monrovia, but virtually non-existent in the rest of the country. The official language of Liberia is English.  
Read the Department of State [Background Notes](#) on Liberia for additional information.
